Image 2 - Abstract

Image 3 - Watercolor Style Abstract

Image 4 - Black and White Abstract

Image 5 - DIY Coloring or Watercoloring Sketch

Image 6 - DIY Paint-Over Pattern

## Suggestions

Images 1 through 4 will print at a size that fits a standard 11"x14" mat or any frame for an 8"x10" photo. You'll do best if you set your computer's printer to its best quality and use matte or low-gloss photo paper.

Image 5 is for your use if you want to create your own abstract with any transparent medium. Use it with colored pencils, watercolor paints, pastels, markers, ink or any combination of those. Print it as often as you'd like and try different colors and different techniques. You'll do best if you print the image on matte bond paper or smooth-textured watercolor paper.

Image 6 is an underpainting that you can use to create your own abstract with oil paint, acrylics or left-over wall paint. Print it as often as you like on light-weight canvas or ink jet canvas, which is available online or at art-supply stores. Choose your own colors and try different techniques until you have a painting that you love.
